Measuring What Matters.

BRIGHTER
MINDS
KINDER
WORLDS

BeIntelli

Every behaviour tells us something.

Understanding **what lies beneath** can change what comes **next**.

Behavioural Intelligence for Growing Minds

UNDERSTAND. NURTURE. EMPOWER.

*A
brighter
tomorrow
begins with
understanding
today.*

What we see is not always **the whole story.**

A child's behaviour is visible.
What shapes it often isn't.

A child may become quiet.
Avoid something they once enjoyed.
React more strongly than expected.
Lose confidence.
Struggle to connect.
Or simply begin behaving differently.

We see the behaviour.
But do we understand what may be happening beneath it?

The challenge isn't noticing behaviour.
It's understanding what it may be telling us —
at the right time.

Because sometimes, what looks like behaviour may be
a child's way of communicating what they cannot yet put
into words.

*Quiet
in class*

WHAT WE SEE
A QUIET CHILD

*Keeps to
themselves*

WHAT WE SEE
A SOCIALLY
WITHDRAWN CHILD

*Frustrated
during an activity*

WHAT WE SEE
A DIFFICULT CHILD

*Seeks
attention*

WHAT WE SEE
A CHILD WHO
DISTRACTS OTHERS

What we may not see... **the story beneath it.**

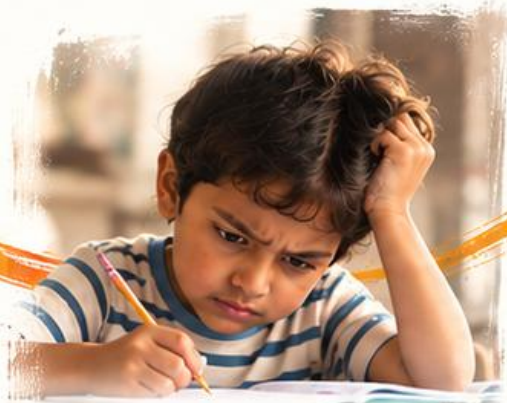

A Moment Is Not a Journey.

Children are constantly changing.
What matters is understanding **what changes with them.**

A MOMENT

Something we notice.

A PATTERN

Something that repeats.

A CHANGE

Something begins to shift.

UNDERSTANDING

Something we can act upon.

How is this child changing over time —
and **what support may be appropriate now?**

BeIntelli™

What if we could understand
the child **beyond the behaviour?**

Behavioural intelligence that helps us
understand patterns, recognise change
and support a child's developmental journey.

Not to label the child.
To understand who they are becoming.

**UNDERSTAND
EARLIER**

Recognise meaningful
patterns.

**SEE
DEEPER**

Beyond the
behaviour.

**SUPPORT
BETTER**

Respond with
understanding.

Ages 4 – 18

| Non-Diagnostic

| Developmentally Aware

| Intelligence Over Time

Understanding Changes **With Age.**

Because the same behaviour can mean something different at a different stage of growing up.

7

Developmental Dimensions

A broader understanding of the child.

21

Behavioural Parameters

Deeper insight into meaningful patterns.

5

Age-Specific Developmental Anchors

Understanding behaviour in developmental context.

4-6 | 7-9 | 10-12 | 13-15 | 16-18

The Seven Developmental Dimensions

Emotional Development

Cognitive Development

Social Development

Self Development

Behavioural Development

Adaptation Development

Safety & Character Development

Because understanding behaviour begins with understanding
where the child is in their journey.

Beyond Behaviour.

Behaviour tells us what happened.
BeIntelli explores what may be shaping it.

*A deeper
understanding
for a brighter
tomorrow.*

The goal isn't simply to explain behaviour.
It's to understand the child behind it.

A child needs understanding, not a definition.

BeIntelli doesn't reduce a child to good, bad, high, low, normal or abnormal. It translates behavioural patterns into developmental understanding that helps adults know what may deserve encouragement, support or closer attention.

Expected for their Stage

Part of growing.

A pattern that may naturally belong to this stage of development.

An Opportunity to Grow

A little support can matter.

An area where guidance may help the child develop.

A Strength Emerging

Something to nurture.

A positive capability beginning to take shape.

A Pattern Worth Watching

Something asking for attention.

A recurring pattern that may benefit from closer observation.

*Curious
Today.
Brighter
Tomorrow.*

We don't tell a child who they are.
We help adults understand what they may need.

One Moment Can Mislead. Patterns Reveal More.

BelIntelli doesn't react to a single answer.
It looks for what repeats, what changes and what begins to matter.

*Same child.
A fuller
picture.*

ONCE

It may simply be
a moment.

AGAIN

Something may
be repeating.

ACROSS SETTINGS

The pattern
gains context.

OVER TIME

Change becomes
visible.

NOW WE UNDERSTAND MORE.

Because a pattern tells us something a single response never could.

FREQUENCY | INTENSITY | DURATION | CONSISTENCY | DEVELOPMENTAL CONTEXT | CHANGE FROM BASELINE

A child is always becoming.

BelIntelli helps make that journey visible.

Children grow. Environments change.
Confidence develops. Challenges appear and disappear.
What matters today may look very different tomorrow.

Understanding shouldn't end with an assessment.

Stable

What remains
consistent.

Emerging

What begins
to appear.

Improving

What is moving
forward.

Changing

What may need
understanding.

Supported

What happens
after guidance.

*Every stage
builds a brighter
tomorrow.*

Assess

Understand

Support

Revisit

See Change

Don't just understand where a child is.
Understand where they are going.

When We Understand Children Better, Schools Become Better Places for Them.

BelIntelli gives schools a deeper understanding of their students —
helping educators act earlier, communicate better and create a more responsive environment for every child.

UNDERSTAND EARLIER

See what may otherwise go unnoticed.

Recognise emerging behavioural patterns before they become more visible challenges.

EMPOWER EDUCATORS

Give teachers context, not assumptions.

Help educators understand what may sit behind behaviour and respond with greater awareness.

STRENGTHEN PARENT TRUST

Make conversations more meaningful.

Give schools and parents a shared, developmental understanding of the child — reducing judgement and improving collaboration.

SUPPORT EVERY CHILD

Not only the child who is struggling.

Recognise strengths, growth opportunities and changing patterns across the wider student community.

SEE PROGRESS

Know whether support is making a difference.

Follow behavioural development over time and understand where progress is happening and where attention may still be needed.

*Thriving
Children.
Stronger
Schools.*

Better-informed teachers. Stronger parent partnerships.
Earlier support. Children understood more deeply.

That isn't another assessment.
That's a better way for a school to understand its children.

*Education
is a kinder
world in the
making.*

*Better
understanding
today.
A brighter
tomorrow.*

CONFIDENT
COMPASSIONATE
CURIOUS
READY FOR
TOMORROW

Deeper Understanding. Within Reach.

Around the cost of a coffee.*

A child's developmental journey
can be understood differently.

BelIntelli is designed to make periodic behavioural intelligence
practical and accessible at scale — so deeper understanding
doesn't have to begin only when a problem becomes visible.

EVERY CHILD

Not only when
concerns arise.

EVERY STAGE

Understanding that
evolves as they grow.

OVER TIME

Not a snapshot.
A developmental journey.

**The value is in understanding earlier.
The breakthrough is making it accessible to many.**

OBSERVE. UNDERSTAND. SUPPORT.

*Every child
has a bigger tomorrow.*

*Pricing may vary based on school size, assessment frequency and implementation model.

Powerful Intelligence. Simple to Begin.

BelIntelli fits into the school journey — without adding complexity to it.

*Understanding
today.
Brighter
tomorrows.*

ONBOARD

Set up the school
& student cohorts.

A SMOOTH START.

ASSESS

Age-appropriate
behavioural
assessment.

EASY FOR SCHOOLS.

UNDERSTAND

Patterns become
meaningful insights.

CLARITY THAT COUNTS.

SUPPORT

Guidance helps
inform the way
forward.

MORE INFORMED ACTION.

REVISIT

See what changes
over time.

A CONTINUOUS JOURNEY.

We bring the intelligence.
Your educators bring what matters most — **knowing the child.**

*Every
child's journey
matters.*

UNDERSTAND.
EMPOWER.
BELONG.

SIMPLE TO IMPLEMENT. EASY TO SCALE. DESIGNED TO BECOME PART OF THE SCHOOL'S DEVELOPMENTAL JOURNEY.
